Initiative Measure

IP26-645

Initiative Measure No. IP26-645 concerns state and local taxes.

This measure would repeal a 9.9% tax on annual individual income over $1,000,000; prohibit taxes measured by individual income and taxes on individual income or the receipt of individual income; and define "income." This measure would decrease funding for public K-12 education, higher education (including universities and community colleges), and human services (primarily healthcare).

Should this measure be enacted into law?

Written by the Office of the Attorney General

The Law As It Presently Exists

The State of Washington imposes various taxes to raise revenue to fund state government. Those taxes include the retail sales tax, the business and occupation tax, the state property tax, the capital gains tax, and other state taxes. In 2026, the Legislature passed a law imposing a 9.9 percent tax on an individual's receipt of income over $1,000,000, beginning in calendar year 2028. Beginning in 2029, the $1,000,000 standard deduction is increased to account for inflation.

The amount of income subject to tax is based on adjusted gross income reported on federal income tax returns, with some modifications.

In addition to the $1,000,000 standard deduction, taxpayers may deduct up to $100,000 for charitable contributions. The $1,000,000 standard deduction and the possible $100,000 deduction for charitable contributions apply per household, so a married couple or domestic partnership shares a single $1,000,000 deduction and up to $100,000 for charitable contributions. Additional deductions are available for certain specific situations. Certain expenses related to pass-through entities that are deducted for federal tax purposes are added to the amount subject to Washington's tax.

The law also allows certain tax credits, which lower the amount of taxes due. These credits are available for income tax paid to another state; amounts paid under Washington's capital gains tax; and taxes owed for business and occupation taxes or public utility taxes paid on the same income subject to this tax.

Nonresidents of Washington are only subject to this tax based on income derived from sources within Washington. Income that they earn from other sources is not counted.

Five percent of the money collected from this tax is deposited into an account that can only be used for childcare and early learning purposes. The remaining 95 percent of money collected from the tax and any interest and penalties is deposited into the state's general fund.

The 2026 law enacting the tax on income above $1,000,000 also enacted or expanded various tax exemptions, deductions and credits. First, it eliminated sales tax on the sale of diapers, over-the-counter drugs, grooming and hygiene products, and certain software, digital services, data processing, and live presentations. Second, it reduced business and occupation taxes by increasing a small-business tax credit, increasing the minimum threshold for businesses to file taxes, and removing a surcharge on high grossing businesses for health care providers, hospitals, prescription drug resellers, and wholesale food sales. Third, it expanded eligibility for the Working Families Tax Credit, which provides a tax refund for qualifying low-income individuals.

The Effect of the Proposed Measure if Approved

If approved, the proposed measure would repeal the annual tax on individual income over $1,000,000. This would also eliminate the funding collected from the tax that would go to the general fund (which funds public K-12 education, higher education such as universities and community colleges, health care, and other human services) and childcare and early learning. The non-income tax credits, exemptions, and deductions that accompanied this tax would not be repealed and would remain in place.

The measure would also prohibit state and local governments from imposing taxes on individual income or the receipt of individual income and taxes measured by an individual's income. The only tax explicitly listed and repealed by the measure is the tax on income over $1,000,000.

The measure would also provide definitions for some terms used in the measure. It would define "income" for purposes of excise taxes as "any gain or benefit measured in money derived from an individual's capital, labor, property, or other source." It would define "individual" for purposes of excise taxes as "a natural person."

Summary

If approved by voters, Initiative Measure No. IP26-645 will result in an estimated loss to state revenue of $11.4 billion over state fiscal years 2027-2031. This would reduce funding to the state general fund to support core government services, particularly public K-12 education, higher education (including universities and community colleges), and human services (primarily healthcare). The Legislature expressed an intent to use the additional revenue created by Engrossed Substitute Senate Bill 6346 (2026) (ESSB 6346) towards providing free school meals, transferring funds for childcare and early learning, and transferring funds to local governments to mitigate sales tax loss.

General assumptions

A state tax equal to 9.9 percent on Washington taxable income greater than $1,000,000 per individual became law following the 2026 legislative session due to ESSB 6346 - Establishing a tax on millionaires. If approved, the initiative will repeal the tax such that it will no longer go into effect on January 1, 2028, and the state will no longer impose this tax.

- The effective date of the initiative is December 3, 2026.
- The provisions of the initiative apply prospectively, not retroactively.
- The Department of Revenue (DOR) ceases all implementation activities on the effective date, including those activities that are in progress.
- Estimates use the state's fiscal year (SFY) of July 1 through June 30. State fiscal year 2027 is July 1, 2026, to June 30, 2027.
- Calendar year refers to January 1 to December 31.
- RCW 29A.72.025 regarding fiscal impact statements indicates any such statement "must describe any projected increase or decrease in revenues, costs, expenditures, or indebtedness that the state or local governments will experience if the ballot measure were approved by state voters." As such, impacts that might occur due to actions of a future Legislature or those only expressed through legislative intent, are not included.

Revenue

Local Revenue

The initiative will not impact local revenue.

State Revenue

The initiative is estimated to result in revenue loss of $11,432,414,000 over five fiscal years from the state general fund, federal general fund, and fair start for kids account. The general fund is the principal state fund supporting the operation of the state. The fair start for kids account is used only for childcare and early learning purposes.

State Revenue Assumptions

State General Fund

Revenue estimates are based on several available data sources including:

- Department of Revenue (DOR) excise data.
- The Economic and Revenue Forecast Council (ERFC) June 2026 tax revenue forecast.
- The Internal Revenue Service (IRS) publication 6149 calendar year projections by state for 2024.
- IRS individual income tax returns for tax year 2022.
- The National Library of Medicine publication, "US Taxation of Gambling Winnings and Incentives to Bet."

The following additional assumptions are made for calculation purposes:

- The first impacted year of tax collections is state fiscal year 2029.
- The only tax impacted is the tax described in ESSB 6346 from the 2026 Legislative Session.
- There are no estimated tax payments required in tax year 2028 (calendar year 2028), therefore the first payments are due from taxpayers in April 2029.
- Approximately 89 percent of total tax payments will occur in April 2029 and the remaining 11 percent of payments will occur in October 2029, due to the six-month extension deadline.
- The first estimated tax payments, for the January 2029 to June 2029 period, are due July 1, 2029.
- Based on information from the Institute on Taxation and Economic Policy (ITEP), it is assumed that there is a reduced IRS enforcement budget. Based on the ITEP analysis, a 4.71 percent downward adjustment is applied to taxpayers' Adjusted Gross Income (AGI) prior to estimating tax collections.
- Due to assumed taxpayer behavior, an assumption about taxpayer compliance is applied to revenue estimates. It is assumed that 90 percent of tax revenue will be collected for tax year 2028 (calendar year 2028) and 95 percent of tax revenue will be collected for tax year 2029 (calendar year 2029) and thereafter.

Federal General Fund

ESSB 6346 made state income tax refunds subject to child support collection action by the Department of Social and Health Services. To implement this provision, the Department of Social and Health Services anticipates receipt of federal funding for information technology updates, policy updates, and staff training. This federal revenue would be eliminated if the initiative was approved.

Fair Start for Kids Account

ESSB 6346 directed the Office of the State Treasurer to deposit five percent of the tax revenue collected to the fair start for kids account beginning July 1, 2029, and each July 1st thereafter. The repeal of the tax means that this transfer will no longer occur. The total amount that will no longer be transferred to the fair start for kids account is $377,000,000, including $155,400,000 in state fiscal year 2030 and $221,600,000 in state fiscal year 2031.

State Revenue Impacts

Table 1. Revenue loss, by account

(See Table 1 on page 13.)

State Government Expenditures

State Agency Implementation Cost Assumptions

State agency savings are estimated to be a net total of $150,471,700 over five state fiscal years as a result of the initiative. Savings by agency are:

Table 2. Expenditures, by agency (state general fund and federal general fund)

(See Table 2 on page 13.)

Department of Revenue

The Department will save a net of $149,844,700 over the five fiscal years between 2027 and 2031. It is assumed that the existing state general fund appropriation for administering the tax will end as of June 30, 2027. Impacts to expenditures and subsequent savings are estimated to occur on or after January 1, 2027.

Currently, the Department has received a total appropriation of $10,196,000 for state fiscal year 2027. The total appropriation for the period from January 2027 to June 2027 is $5,408,400. Unspent amounts from the general fund for state fiscal year 2027 are currently unknown due to potential contracts and vendor commitments. For state fiscal years 2028, 2029, 2030, and 2031 it is assumed that DOR would receive funding from the legislature in accordance with the fiscal note for parts I – VIII of ESSB 6346 – Establishing a tax on millionaires. Savings are assumed for tax administration duties for approximately 30,000 taxpayers that will no longer be required. These savings by state fiscal year are as follows:

- Savings of $53,676,000 for state fiscal year 2028.
- Savings of $35,696,900 for state fiscal year 2029.
- Savings of $30,544,400 for state fiscal year 2030.
- Savings of $29,927,400 for state fiscal year 2031.

Office of the Attorney General

The Office of the Attorney General (AGO) will have no increase or decrease in costs each state fiscal year from 2027 through 2031. The anticipated change in the amount of legal services workload is minimal. The AGO did not receive funding specific to implementing ESSB 6346.

Department of Social and Health Services

In state fiscal year 2027, the Department of Social and Health Services (DSHS) will save $139,000 in state funds and $279,000 in federal funds. In state fiscal year 2028, DSHS will save $74,000 in state funds and $143,000 in federal funds. This funding was provided for information technology updates, policy updates, and staff training for the agency to implement child support collections on state tax refunds.

Office of the State Treasurer

The Office of the State Treasurer (OST) will have no increase or decrease in costs in state fiscal years 2030 and 2031 to administer the transfer to the fair start for kids account. The OST did not receive funding specific to implement ESSB 6346.

Department of Corrections

The Department of Corrections will have indeterminate savings resulting from the elimination of the class C felony for evading this tax.

Department of Children, Youth, and Families

The Department of Children, Youth, and Families will have indeterminate savings resulting from the elimination of the class C felony for evading this tax. It is unclear if these criminal offenses are limited to adult crimes.

Argument for

Vote Yes: Repeal the Income Tax, Make Olympia Keep Its Word
Trust isn't built by passing another tax, it's earned by keeping promises. Over the last 90 years, Washingtonians have rejected an income tax ten times because they knew it would threaten economic growth, discourage investment, and reach beyond the people originally targeted. This year, the Legislature enacted a new income tax anyway. I-645 restores your right to decide.

Taxes Always Expand
Supporters insist the tax is narrow, applying only to income above $1 million. But lawmakers rejected opportunities to permanently limit its reach, giving Olympia the ability to expand the income tax to everyone. Before asking taxpayers for more, they should demonstrate they can keep the commitments they've already made.

A History of Broken Promises
80 times in the last five years Olympia has moved money from dedicated accounts to the general fund. They've taken money from state healthcare, flood control, pipeline safety, school employees' insurance, and others to backfill the general fund. The capital gains tax was promised to support early learning and childcare, yet those commitments were delayed, reduced, or cancelled. First responders spent careers relying on promises about their retirements, only to watch the legislature raid their pensions to plug holes in the general fund. Trust erodes when dedicated funding doesn't produce the results people were promised.

Voting Yes repeals the new income tax before it begins, preserves the Working Families Tax Credit, paid family leave, and small-business tax relief. Voters have the final say.

Argument against

Washington has one of the nation's most upside-down tax systems, where working and middle class families pay a far higher tax rate than the wealthiest. I-645 would make that worse. I-645 is fiscally irresponsible, slashing billions in funding for education and healthcare, increasing taxes on 460,000 hard-working families, and jeopardizing tax cuts for thousands of small businesses.

Vote No: Stop a Tax Break for the Wealthiest
Hedge fund mogul Brian Heywood has spent millions backing I-645 because he wants a tax cut for the top 1%, while sticking working and middle class families and small businesses with higher costs. I-645 could mean higher taxes for thousands of small businesses, force families to pay sales tax for basic household items like diapers, and raise taxes for 460,000 Washington families – just so those making over a million dollars in a year get a tax break.

Vote No: Stop Cuts to Schools, Healthcare, and Childcare
This measure cuts funding for K-12 public schools, healthcare, childcare, and other important public services by $13 billion over four years. That means larger class sizes, higher costs for healthcare and childcare, and the elimination of free school lunches for many children.

Vote No: Stop Higher Costs for Working Families
I-645 gives the wealthiest a big break while the rest of us face higher healthcare and childcare costs and cuts to public schools and higher education. Join Washington nurses, teachers, and small business owners. Vote No on I-645.

Rebuttal of argument against

The No campaign's claims are false. I-645 repeals the income tax. Without I-645, Olympia can expand the income tax to reach into your paycheck with the simple stroke of a pen. No public vote and no permission required, any time they want. This was never about schools or diapers, that's a scare tactic. Washington has record revenues. An income tax on anyone will become an income tax on everyone. *Vote Yes*.

Rebuttal of argument for

The Millionaires Tax only applies to those making above one million dollars per year. Any attempt to expand it to those of us making under a million would be decided on the ballot - voters always have the final say. I-645 blows a $13 billion hole in the budget - don't believe lies that we can keep tax cuts for working families and small businesses but eliminate the tax on the wealthy few that pays for them.

Initiative Measure

IL26-001

Initiative Measure No. IL26-001 concerns parental rights relating to their children in public school.

This measure would repeal amendments to a statute listing certain rights of parents and guardians of public-school children and re-enact the law as it was originally enacted by Initiative to the Legislature 2081.

Should this measure be enacted into law?

Written by the Office of the Attorney General

The Law as It Presently Exists

In 2024, the Legislature passed Initiative to the Legislature 2081, which listed certain rights of parents and guardians of public-school children. Many of those rights were already set forth elsewhere in state or federal law. In 2025, the Legislature made several changes to this list of parental and guardian rights, which again restated many rights that already existed elsewhere in state and federal law. Currently, the list of parent and guardian rights is set forth in statute at RCW 28A.605.005 and provides:

Access to Educational Materials and Records: Parents and legal guardians have the right to access their child's classroom and school-sponsored activities to observe and to examine textbooks, curriculum, and supplemental materials used in their child's classroom in accordance with policies and procedures. Parents and legal guardians have the right to review their child's education records by submitting a written request. Records must be provided within a reasonable period of time not to exceed 45 days. Education records are defined as official records, files, and data directly related to a student and maintained by the public school, including records in a child's cumulative folder, records of attendance and academic work completed, records of achievement and evaluative tests, disciplinary status, test protocols, and individualized education programs. Education records do not include records that are kept in the sole possession of the maker, are used only as a personal memory aid, and are not accessible or revealed to any other person except a temporary substitute for the maker of the record. Schools may charge a reasonable fee for copying education records for parents and guardians so long as the fee does not prevent a parent or guardian from accessing the records. Parents and guardians are not required to appear in person to request education records, provided the public school can ascertain the identity of the requestor. Access and disclosure of health care information is governed by state health-care disclosure laws.

Student Performance and Attendance: Parents and legal guardians have the right to be informed of their child's academic performance, including the child's performance on state learning standards tests and assessments. A parent or legal guardian has the right to request an in-person meeting with the child's classroom teacher and principal to discuss resources or strategies to support and encourage the child's academic improvement. Parents and legal guardians also have the right to be notified of unexcused absences and to engage in efforts to eliminate or reduce the child's absences in accordance with other state law.

Criminal Action and Law Enforcement: Parents and legal guardians have the right to receive immediate notification when a criminal action is alleged to have been committed against their child on school property during the school day or during a school sponsored activity or when their child has been detained based on probable cause of involvement in criminal activity on school property during the school day. Parents and legal guardians also have the right to receive immediate notification if their child is subject to custodial interrogation at the school during the school day, except in cases where the parent or legal guardian has been accused of abuse or neglect against the child being questioned. Public schools must also give notice to parents and guardians upon receipt of reports that their child is the alleged victim of physical or sexual abuse, misconduct, or assault by a school employee or contractor.

Removal from Campus: Parents and legal guardians have the right for their child not to be removed from school grounds or buildings during school hours without the authorization of a parent or legal guardian according to other provisions of state law. Notice to parents provided by youth shelters, law enforcement agencies, and the Department of Children, Youth, and Families when they provide shelter to or take custody of children are governed by other laws.

Non-Discrimination: Parents and legal guardians have a right to have their child receive a public education in a setting that prohibits discrimination on the basis of sex, race, creed, religion, color, national origin, honorably discharged veteran or military status, sexual orientation, gender expression, gender identity, the presence of any sensory, mental or physical disability, or the use of a trained dog guide or service animal by a person with a disability.

Harassment, Intimidation, and Bullying: Parents and guardians have the right to file a complaint on behalf of their child relating to harassment, intimidation, and bullying, as set forth in other state law.

Notification and Opt Out Rights: Parents and legal guardians have the right to receive written notice and to opt their children out of surveys, analyses, or evaluations that reveal information concerning categories listed in federal opt-out laws, including political affiliation or beliefs; mental or psychological problems of the student or student's family; sex behavior and attitudes; illegal, anti-social, self-

incriminating, or demeaning behavior; critical appraisals of people with close relationships to the child or the child's family; religious practices, affiliations, or beliefs of the child or the child's family; and income. Parents and legal guardians also have the right to opt their child out of comprehensive sexual education as required by other state law.

Enrollment Rights: Parents and legal guardians have a right to have their child qualify for enrollment in a school district if they are transferred to, or pending transfer to, a military installation within the state. Parents and legal guardians have a right to have their child qualify without a legal residence for enrollment in a school district. Parents and legal guardians also have the right to request enrollment for their child in a nonresident school district. Parents and legal guardians have a right to request enrollment for their child in a charter school.

Language Access Rights: Parents and legal guardians have a right to receive annual notice of the public school's language access policies and services and the parents' right to free language access services. Parents and legal guardians also have a right to have their child whose primary language is not English to access supplemental instruction and services through a transitional bilingual instruction program.

Special Education Rights: Parents and legal guardians have the right to request special education programs and assistance for their child if their child is eligible for, but not receiving, special education services, including due to illness. Parents and legal guardians also have the right to request an appeal to the superintendent of public instruction if their child with disabilities has been denied the opportunity of a special education program by a school district or public school, and to access special education due process hearings regarding their child.

School Calendar: Parents and legal guardians have a right to receive the annual school calendar no later than 30 days prior to the beginning of the school year, and to be notified of any revisions to the calendar. The calendar must be posted to the school's website and must include student attendance days and events that require parent or student attendance outside of normal school days or hours.

Required Fees: Parents and legal guardians have a right to be informed of required fees and their purpose and use, and how economic hardships may be addressed.

Dress Code or Uniform: Parents and legal guardians have a right to be informed of a description of any required dress code or uniform.

Private Right of Action: Nothing in the statute setting forth rights of parents and legal guardians creates a private right of action.

The Effect of the Proposed Measure if Approved

If approved, the proposed measure would undo all of the changes made by the 2025 Legislature, and re-institute the list of rights as enacted in 2024 by Initiative to the Legislature 2081. Specifically, the proposal would modify current law in the following ways:

Access to Educational Materials and Records: Parents and legal guardians would have a right to examine the textbooks, curriculum, and supplemental material used in their child's classroom. The limitation that parental and guardian access is according to the provisions of other law and in conformity with school policies would be removed. With respect to records, schools would be prohibited from requiring that parents appear in person to make a records request. The exception for cases where the school could not verify the identity of the parent or guardian would be eliminated. Schools would be prohibited from charging for electronic copies, and could charge a reasonable fee for copies of paper records. Records would have to be produced within ten business days instead of the 45 days allowed by current law. The kinds of records that schools would be required to produce would be broadened to include any student-specific files, documents, or other materials that are maintained by the school. The exception for documents kept in the sole possession of the maker would be eliminated. The provision specifying that health care records are controlled by separate laws about disclosure of health care records would be eliminated.

Medical Services and Treatment: The measure would add that parents and legal guardians have a right to receive prior notification when medical services are being offered to their child (except emergency medical treatment), to receive notification when any medical service has been provided to their child that could result in financial impact to the parent or legal guardian, and to receive notification when the school has arranged for medical treatment that results in follow-up care beyond normal school hours.

Criminal Action and Law Enforcement: The specification that parents and guardians are only entitled to notice from public schools when the crime or law enforcement engagement occurs on school property and during school hours would be removed. The right to receive immediate notification when a child is alleged to be the victim, target, or recipient of physical or sexual abuse, sexual misconduct, or assault by a school employee or contractor would be removed.

Removal from Campus: The provision specifying that parental and legal guardian notification by youth shelters, law enforcement, and the Department of Children, Youth, and Families is governed by other laws would be removed. Public schools would be required to notify parents if a child is taken or removed from a public school without parental permission, including to stay at a youth shelter.

Non-Discrimination: The provision specifying that parents and legal guardians have a right to have their child receive an education in a setting that prohibits discrimination on a number of bases would be removed. The measure would instead state a right of parents and legal guardians to receive assurance that their child's public school will not discriminate against their child based upon the sincerely held religious beliefs of the child's family.

Notification and Opt Out: Parents and legal guardians would continue to have the right from federal law to receive written notice and to opt their children out of surveys, analyses, or evaluations that reveal information concerning political affiliation or beliefs; mental or psychological problems of the student or student's family; sex behavior and attitudes; illegal, anti-social, self-incriminating, or demeaning behavior; critical appraisals of people with close relationships to the child or the child's family; religious practices, affiliations, or beliefs of the child or the child's family; and income. The measure would add to the list of topics for which parents and legal guardians have the right to receive notice and opt-out the child's sexual experiences or attractions, the child's family beliefs, morality, or religion, or political affiliations; and any mental health or psychological problems of the child or a family member.

The right to opt a child out of comprehensive sexual education would be rewritten to state a right to receive written notice and the option to opt a child out of instruction on topics associated with sexual activity in accordance with state law.

Other Provisions Removed: The right of a parent or legal guardian to file a complaint on behalf of their child relating to harassment, intimidation, and bullying, as set forth in other state law, would be removed. The statement that nothing in the statute setting forth rights of parents and legal guardians creates a private right of action would be removed. The provisions regarding enrollment rights, language access rights, and special education rights would be removed.

Calendar, Fees, and Dress Code: No changes would be made to the provisions regarding the school calendar, required fees, or the dress code or uniform.

Summary

If approved by voters, Initiative Measure No. IL26-001 would restore RCW 28A.605.005 as originally passed by the Legislature in the 2024 session. It would list certain rights of parents and guardians of public-school children, such as the right to review their child's school records, receive notifications, and opt their child out of certain activities. It would repeal amendments made in the 2025 legislative session. The initiative would have no fiscal impact on the state. Local school districts may incur minor costs to update policies and procedures, but this fiscal impact is indeterminate.

General assumptions

- The effective date of the initiative is December 3, 2026.
- The provisions of the initiative apply prospectively, not retroactively.

Revenue

The initiative would not impact state or local revenue.

Expenditures

The initiative would have no fiscal impact on state government. Local school districts could incur minor costs to update policies and procedures, but this fiscal impact is indeterminate.

Argument for

Vote Yes to Restore Parents' Rights in Education
These rights include access to their child's instructional materials and student records, notice of medical services, opt-outs from certain activities and instruction, and immediate notification when law enforcement questions their child or their child is removed from campus without parental permission.

Protecting Vulnerable Children
School staff remain mandatory reporters of suspected child abuse or neglect. Privacy for vulnerable children remains paramount. But safeguards designed for children at risk should not become a default policy of withholding information from all parents.

Support Families, Not Secrecy
Parents must give permission for schools to administer medication, apply sunscreen, or take students on field trips. Yet current policies allow schools to withhold critical information when a child expresses a new gender identity at school. These policies may require staff to conceal this information from parents, even when doing so conflicts with their conscience or professional judgment. Opponents call sharing this information with parents "outing" even when significant changes to a minor's school life may already be known to classmates, teachers, and staff. Deliberately excluding parents treats them as inherently unsafe without an individualized assessment. This undermines the vital parent-child relationship and denies families the opportunity to navigate consequential questions about health and well-being together.

Restore Trust in Washington Schools
Schools are essential partners in a child's educational success, while parents are responsible for raising their children. Respecting these distinct roles is essential to restoring trust. Vote yes.

Rebuttal of argument against

Don't be misled. IL26-001 expressly states that schools "shall not be required to release" mental health counseling records when a parent is the target of a child abuse or neglect investigation; requires "immediate notification" if a criminal action is deemed committed against or by their child; and contains *zero* mandates placing students in danger. The measure preserves safeguards while ensuring parents receive consequential information about their children. Vote yes.

Argument against

Vote No On Removing Commonsense Protections For Child Abuse Victims
While most parents are loving, the sad reality is there were 117,000 reports of child abuse or neglect in WA in 2024 alone. This poorly written measure further endangers vulnerable child abuse victims by requiring schools to hand over sensitive information to parents under criminal investigation for raping, abusing or otherwise harming their own child. That's why it's opposed by law enforcement and the WA Coalition Against Domestic Violence and Sexual Assault.

Vote No On Delaying Parental Notification When Children Are Crime Victims
If a student is the victim of a serious crime at school, parents should not have to wait to find out. An unintended consequence of IL26-001 is ending Washington's legal requirement that schools *immediately* notify parents when the crime is reported. Experts say delayed notification only adds to the child's trauma and can prevent a child from getting immediate help and support from loved ones and professionals.

Vote No On Worsening The Teen Mental Health And Homelessness Crisis
School nurses and counselors say this measure, bankrolled by ultra-conservatives, discourages students facing domestic violence, sexual abuse, or bullying from seeking help from trusted teachers and school counselors, who would be required to release students' confidential records. It also forces schools to knowingly put LGBTQ+ kids in increased danger of violence and homelessness by outing them to potentially abusive families.That's why the WA State Nurses Association, doctors, and school counselors oppose this measure.

Rebuttal of argument for

IL26-001, bankrolled by ultra-conservative interests, is so poorly written it would eliminate key existing parental rights. It will repeal current state laws that guarantee parents' rights to immediate notification if their child is a victim of a crime at school. It ends commonsense protections for child abuse victims whose parents are accused of child abuse and rape. That's why it's opposed by the WA Coalition Against Domestic Violence and Sexual Assault. Vote No.

Initiative Measure

IL26-638

Initiative Measure No. IL26-638 concerns participation in athletics at K-12 schools.

This measure would prohibit students it defines as "biologically male" from competing in certain school athletic activities intended for female students only. It would require verification of biological sex by students' healthcare providers.

Should this measure be enacted into law?

[ ] Yes

[ ] No

Explanatory Statement 21

Arguments For and Against 22

A new method of numbering initiatives and referenda is in effect (WAC 434-379-0071).

Explanatory Statement

Written by the Office of the Attorney General

The Law as It Presently Exists

In Washington, school districts may offer extracurricular sports opportunities for students. Those sports must be offered to all public school students without regard to sex, but public schools may provide separate athletic teams based on sex. The Office of the Superintendent of Public Instruction also creates regulations and guidelines to eliminate discrimination in sports for students, and these regulations prohibit discrimination based on sex and gender identity.

Public and private K-12 schools in Washington may allow individual athletes and teams to compete against athletes and teams from other schools. For public schools, a school district's board of directors is responsible for regulating these athletic activities but may delegate that responsibility to a nonprofit organization, such as the Washington Interscholastic Activities Association (WIAA). A nonprofit organization that regulates interschool sports may not discriminate on the basis of sex and must have written rules and policies regarding student participation.

The Effect of the Proposed Measure if Approved

If approved, this initiative would change participation rules for interschool sports. This initiative would, in its own language, prohibit "biologically male students from competing with and against female students" on sports teams or in individual events that are designated for female students only. This would generally prevent transgender girls from participating on girls' sports teams. This prohibition would affect public K-12 schools and also private schools that participate in the WIAA or similar nonprofit organizations.

Students who want to participate in interschool sports teams or individual events that are designated for female students only would have to provide a form that verifies the student's "biological sex." That form must be signed by the student's personal health care provider. The verification would have to be based on the student's reproductive anatomy, genetic makeup, or normal endogenously produced testosterone levels. Students would thus have to undergo some type of medical evaluation of their sex to participate in interschool sports designated for female students only.

Summary

If approved by voters, Initiative Measure No. IL26-638 would prohibit students it defines as "biologically male" from competing in certain school athletic activities intended for female students only. It requires verification of biological sex by students' healthcare providers. The Office of the Superintendent of Public Instruction would incur minor costs to update current guidance. Local school districts may also incur costs to revise existing policies, procedures, rules, and other requirements, but this fiscal impact is indeterminate.

General assumptions

- The effective date of the initiative is December 3, 2026.
- The provisions of the initiative apply prospectively, not retroactively.
- The estimates use the state's fiscal year (SFY) of July 1 through June 30. State fiscal year 2026 is July 1, 2025, through June 30, 2026.

Revenue

The initiative would not impact state or local revenue.

Expenditures

The Office of the Superintendent of Public Instruction would incur a one-time cost of approximately $21,000 in SFY 2026 to update existing guidelines to align with the initiative's requirements. Local school districts would likely also incur costs to revise existing policies, procedures, rules, and other requirements, but this fiscal impact is indeterminate.

Argument for

Vote yes to protect fairness in girls' sports.
Female athletes deserve fair opportunities to build confidence, develop skills, and pursue goals. Let's protect those opportunities and affirm the hard-fought rights established through Title IX in 1972, which expanded athletic access for women by recognizing the necessity of the female category. Washington currently allows males to compete against girls, undermining opportunities generations before them fought to secure.

Approving IL26-638 would align Washington with world sports policies.
Federal law, the Women's Tennis Association, World Athletics, and the International Olympic Committee have all adopted policies to protect eligibility for the female category. In March 2026, the IOC president stated, "It is absolutely clear that it would not be fair for biological males to compete in the female category."

Voting yes gives all students the opportunity to participate in interscholastic sports.
Medical clearance is already required to participate safely. Students would compete in the category that aligns with their sex, verified during routine, medically necessary primary care recommended by the American Academy of Pediatrics. During a private, consented visit, a licensed medical professional would verify sex based on the student's birth records, medical history and/or a standard, non-invasive physical examination.

Washington can respect every student while recognizing that sex-based athletic categories are necessary.
A female athlete should not lose a starting position, medal, championship, or college recruiting opportunity because the category created for her was not protected.

Rebuttal of argument against

Don't be misled by the opposition. IL26-638 doesn't require invasive or expensive exams. Standard primary pediatric care already verifies sex; transferring that record to sports is sufficient. Male athletic advantage is well established. Washington competition results document at least 269 placements by male athletes competing in girls' interscholastic categories, including 74 firsts and 156 top-three finishes. The initiative doesn't ban anyone from sports. It simply requires participation consistent with one's sex. Vote yes.

Argument against

Vote No To Protect All Girls
We all want fairness and safety in sports, but this poorly written measure would require girls as young as 8 to undergo intrusive medical sex certification as a new part of sports physicals. *It bans parents from using birth certificates.* Section 2 says doctors must subject girls to invasive examinations of their "reproductive organs," or expensive genetic or hormone tests. *These requirements apply to girls only, boys are exempt.*

Vote No Because It's the Most Extreme Proposal of Its Kind In The U.S
This initiative is bankrolled by an ultra-conservative mega-donor to distract from rising costs, foster hate, and divide our communities. It's playing politics with kids, and putting girls at risk.

Vote No Because Doctors and Nurses Warn It Requires Invasive Genital Exams On Girls
The WA State Nurses Association, Planned Parenthood Alliance Advocates, and doctors warn this measure would subject girls to medically unnecessary, embarrassing, and potentially harmful genital exams. Today, students remain fully clothed during sports physicals. Many of Washington's 147,500 girls without a regular family doctor would be subject to genital examinations by total strangers.

Vote No Because It Discourages Girls From Playing Sports
Coaches and athletes say if we truly cared about girls' sports we would not put up more barriers for girls like invasive genital exam requirements. This statewide blanket ban to kick 5 - 10 trans girls off school teams will negatively impact all girls, leaving no room for case by case decisions.

Rebuttal of argument for

IL26-638 is opposed by pediatricians, nurses, parents, and sexual assault prevention groups because it discriminates against girls and puts them at risk of harm. Today girls in elementary, middle, and high school remain fully clothed during sports physicals. Doctors say this poorly written measure will subject girls to new invasive genital examinations. This measure - the most extreme in the nation - exempts boys, and bans parents from using birth certificates. Vote No to protect girls.

Statement
I am proud to represent Washington's 7th district and stand up for working people every single day. As your Congresswoman, I've worked to protect our democracy, raise wages, lower costs, build affordable housing, protect abortion rights, and fight climate change.

I'm leading the fight for the Medicare for All Act to ensure that universal healthcare is a right, not a privilege. I also lead landmark legislation to make higher education tuition-free, guarantee housing as a human right, expand workers' rights, raise the federal minimum wage, implement humane immigration reform, and establish an ultra-millionaire wealth tax. I lead bipartisan bills that ban stock trading for Members of Congress and protect Americans from government spying. I'm doing everything possible to get money out of politics and reform the Supreme Court.

I've been on the frontlines of holding Trump accountable, including around the lawless ICE and CBP actions that have kidnapped and disappeared our neighbors. I established the Monopoly Busters Caucus to fight consolidation, corporate greed, and price-gouging. I have authored a War Powers Resolution to end Trump's illegal war in Iran and worked with Epstein survivors to get justice against predators and pedophiles.

I've held over 130 town halls and helped thousands of constituents, including veterans and seniors, secure over $25 million in federal benefits. My office has brought home more than $70 million in new federal investments for housing, transportation, jobs, and public safety.

I'm proud to represent a diverse, innovative and compassionate district. I have never taken corporate PAC money because I fight for working people, not the billionaires and giant corporations. I would be deeply honored to have your vote.

My goal is to create sustainable & affordable housing to solve homelessness, bringing law & order back to Seattle & cheaper cost of living for everyone.

My name is Nirav Sheth. My journey from a modest home in India to this stage was built on one belief: the American Dream is not a gift—it is a promise worth fighting for. I didn't just come to this country; I earned my place here. I swore an oath to protect our nation, first as a United States Marine and later as a Police Officer. I know the grit it takes to keep a community safe and the discipline required to lead when there is no room for error. Today, our district is at a breaking point. If you believe our community is thriving, stay the course. But if you feel the higher cost of living & energy, unsafe neighbourhood, and the fading light of opportunity, it is time to turn the tide. I've felt this failure personally. My business, Bistro Baffi, was a victim of the very policies that are driving employers away and letting our neighborhoods crumble. I am also running for Congress to bring military-grade accountability to Washington, D.C. I also want to work on Real Solutions to help homeless people & Energy Independence.

In the Marines and in business, I've managed budgets where every cent mattered. I will treat your tax dollars with that same sacred respect. My life has been defined by service; now, I ask for the honor of being your voice.

Together, we will secure a legacy of prosperity for our children and bring growth back to our community.

Statement
I'm in Congress to fight for you and to put a check on this administration's unchecked power. Right now, families are struggling to get by, let alone get ahead. That's why I've introduced legislation to immediately suspend the gas tax through the end of the year, spur clean energy development, crack down on insurance company abuses, and create more affordable housing.

Your tax dollars should work for you. That's why I secured over $60 million for Community Projects across the 8th District: Graham's school based health clinic, Ellensburg's Veterans' housing, Highway 2 improvements, multiple food bank expansions, North Central Washington firefighting and wildfire resiliency, and body cameras and a King County rapid DNA system to support law enforcement.

I'm standing up for family farms, which are foundational to the 8th District, by reversing India's apple tariffs, fighting the Albertson's-Kroger merger, and getting support for foreign market access in the Farm Bill.

Healthcare costs are too high, so I've passed bills to cap insulin costs, give Medicare the power to negotiate lower prescription prices, and cap out of pocket costs for seniors. But this Congress, my Republican colleagues slashed your healthcare to give a tax break to billionaires. That's outrageous. I will always fight to lower costs and put doctors and patients back in the driver's seat, not insurance companies.

With over 130 town halls, I'm committed to listening, learning, and delivering for you in Congress. It is an honor to serve you, and I humbly ask for your vote.

Education
Completed coursework through Edmonds Community College while pursuing business and career opportunities.

Community Service
Partners with local organizations to help provide meals to the community through his business. Active supporter of local schools, youth activities, churches, and community events throughout the region.

Statement
I'm running for Congress because too many Washington families feel like the American Dream is slipping away. The cost of housing, groceries, fuel, insurance, and everyday life keeps rising. Small businesses are closing at alarming rates, and many people feel ignored by career politicians who have never experienced the challenges facing working families.

I'm honored to have earned the endorsements of both the King County Republican Party and the Snohomish County Republican Party. Their support reflects the growing momentum behind our campaign and our message of restoring opportunity for working families across Washington.

I'm not a politician. I'm a husband, father, and small business owner who built businesses from the ground up. I know what it means to meet payroll, manage rising costs, and work long hours to provide for a family.

I believe we need leadership focused on lowering costs, strengthening small businesses, supporting family-wage jobs, protecting our communities, keeping our border secure, and responsibly managing our public lands for future generations.

I'm running to bring a real-world perspective to Congress and fight for the people who work hard, play by the rules, and want a fair chance to build a better future.

Smith

(Prefers Democratic Party)

Elected Experience
United States Representative, 1997-Current; Washington State Senator, 1991-1996

Other Professional Experience
Prosecutor, City of Seattle, 1993-1995; Attorney, Cromwell, Mendoza and Belur

Education
J.D., University of Washington, 1990; B.A., Fordham University, 1987

Community Service
Member: University of Washington Evans School Honorary Advisory Board; Council on Foreign Relations; Borgen Project Board of Directors. Former member: Issaquah Soccer Club, volunteer coach; Issaquah High and Middle School PTAs; Northeast Tacoma Elementary PTA, where my wife, Sara, served as PTA President; Federal Way Kiwanis Club; Tom Lantos Human Rights Commission; St Matthew's Episcopal Church.

Statement
Our district is a tremendously diverse and hard-working community, one that I have been proud to call home my entire life. I grew up in the city of SeaTac. Sara and I raised our two children here, they attended our public schools and then went to UW and WSU.

As our nation faces unprecedented challenges at home and abroad, I am focused on strengthening the middle class and investing in our future. Working class families, like the union one I grew up in, do not have the same opportunities as previous generations. This needs to change. We must bring down the cost of housing and make homeownership achievable again. We must grow from the middle out, increase economic opportunities, protect unions, expand job training and workforce development programs, create good paying jobs and protect the ones we have.

All people, no matter their background, should have access to quality, affordable healthcare. Our healthcare system needs to be restructured to create a path to a single-payer plan like Medicare for All. As the past Chairman and top Democrat on the House Armed Services Committee, I have also prioritized making sure that all of our service members and their families, no matter who they are, receive the support they need and have earned.

I work hard to make sure every person in our district has access to the best this country has to offer; not only because it's the right thing to do, but because this is also my home—it's personal to me.

It is a true privilege to serve our community and I would be honored to have your vote.

Basler

(Prefers Republican Party)

Other Professional Experience
Founder and President of Prologue Digital Inc., a Washington advertising and video production company; media and marketing professional since 1990; longtime sales trainer and small business owner.

Education

Community Service
Worked with rescue missions, Union Gospel Mission, and the Salvation Army on homelessness outreach; worked closely with at-risk youth; former youth pastor, worship pastor, and longtime church volunteer.

Statement
I'm running for Congress because Washington families deserve more than another political revolution. We need an opportunity revolution.

The Seattle area helped build some of the greatest companies in the world — Boeing, Microsoft, Starbucks, Amazon, Costco, and many more. We became known as a place where ideas could grow, workers could prosper, and families could build a better future. But today, big government policies are making it harder to build, hire, afford, and stay. When we become hostile to the very employers and innovators that created opportunity here, we lose jobs, weaken our economy, and make life harder for working families.

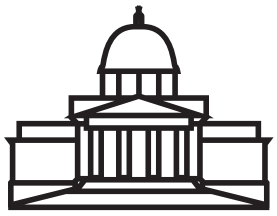

Affordability is now a crisis. Families are being squeezed by higher gas prices, energy costs, groceries, housing, insurance, and taxes. The Climate Commitment Act may sound good, but in practice it is driving up the cost of energy while doing little to directly improve the environment. Combined with one of the highest gas taxes in the country, these policies raise transportation, food, and energy costs — and those costs get passed on to families through nearly everything they buy. I believe in family, public safety, faith in God, and faith in each other. We need to love our neighbors again. We have had enough division, anger, and blame. Our problems are real, but we will not solve them by tearing each other apart.

I will be a voice of common sense, moderation, and practical solutions in a highly charged political environment. I believe in safer communities, stronger families, lower costs, responsible government, and an economy where everyone has the opportunity to work, build, serve, and thrive.

I'm Doug Basler, and I would be honored to earn your vote.

Education

Community Service
My family has lived continuously in Hobart, WA since 1887. Community service has always been part of our tradition, and thanks to my father, Dick Peacock, long-time president of the Maple Valley Historical Society, I've developed an in-depth understanding of the histories of the areas around Issaquah, Maple Valley, Ravensdale, Black Diamond, and Enumclaw.

Statement
Washington is becoming increasingly unaffordable, and introducing a state income tax would only worsen the situation. Residents already pay some of the highest fuel taxes, which drives up costs across the board. To address these challenges, we must encourage employers not to leave and prioritize issues like affordable housing, quality education, and reducing crime. Unfortunately, Washington's one-party rule has failed to deliver effectively on these issues. Continuing to vote the same way and expecting different results is futile—it's time for a change. There are real solutions, let's do what works.

Statement
Washington families deserve to live in a state where hard work can still afford a home, fill a gas tank, and build a better future for their children.

For too long, Olympia has made life more expensive while families fall further behind. Michael Rutland will fight to lower costs, oppose new income taxes, repeal policies driving up fuel and grocery prices, and demand responsible budgeting instead of higher taxes on working people. Washington taxpayers deserve relief, accountability, and leaders who understand the pressure families and small businesses face every day.

Every child deserves a great education, and every parent deserves a voice. Michael will support high academic standards, safe schools, career and technical education, and parental involvement so students are prepared for college, careers, and life. He believes schools should focus on helping every student succeed, not political agendas coming from Olympia.

Safe neighborhoods, affordable living, and accountable government should not be partisan issues. This election is a chance to bring balance, common sense, and a new direction for Washington, so Washington works for working people again.

Statement
It's been an honor to serve as your voice in the State Senate and stand up for the values, freedoms, and common sense that make our communities strong. My approach to decision-making is simple: God first, the district second, and personal preference last. That principle guides every vote I take in Olympia. It's why I regularly seek your feedback through district surveys and town halls. Your voice should shape the decisions that affect our communities.

The financial challenges facing our state are not accidental. They stem from excessive spending and the unchecked growth of government programs. Individuals, families, seniors, workers, and small businesses are all being crushed by rising taxes and higher costs and for many of us, we've reached the breaking point.

I will continue to stand firmly against efforts to erode our Second Amendment rights, and I will fight for responsible, disciplined use of your tax dollars. I ask for your continued support as I work to protect your rights, defend your prosperity, and fight for a more accountable state government.

Proudly endorsed by law enforcement leaders, local elected officials, community leaders, and neighbors across the district who trust me to represent their values at the state Capitol.

Past volunteering includes Secretary for the Family Readiness Group of the USS Shoup (DDG-86).

Statement
I'm running for State Senate in the 31st district because I believe our communities deserve a senator who shows up, listens, and works for everyone who calls this district home. Families are being priced out, infrastructure is straining under rapid growth, and our schools are asked to do more with less. At the same time, too many people feel unheard, or afraid to speak up.

I'm a mom, an organizer, and a veteran spouse. I've worked as a youth counselor with kids in crisis, supported military families through deployments, and spent eight years putting down roots near Lake Tapps, raising my two boys with my husband. Our current challenges aren't abstract policy debates to me; they are my life.

I believe we can govern better. I will lead with honesty, compassion, and determination to solve problems while representing the whole 31st district. I will advocate for our communities to be prioritized by Olympia, particularly in the transportation budget. We deserve leadership that cares about families, champions education, and takes rural infrastructure development seriously. I would be honored to earn your vote.

Statement
As a lifelong Washingtonian, I know our state's incredible potential. Unfortunately, Washington keeps going in the wrong direction. Meanwhile taxes keep increasing, by billions each year.

It's time for change. I'm running for reelection to reverse these trends. I'll fight for safer neighborhoods where laws are enforced and criminals are apprehended, better schools that prepare all students for college or career, and a stronger and more affordable economy. *Together, let's fix Washington.*

With your support, I will keep fighting to lower living costs, demand accountability, protect our most vulnerable, and secure our neighborhoods. Let's lead with action, not talking points.

Statement
I am honored to serve you in the State Senate, where I've built on my record of legislative leadership– advancing measures to address housing and behavioral health needs and of veterans and military families and have worked to create protections for our communities against unregulated AI. I'm proud of this year's bills that strengthen protections against child sexual exploitation, prohibit insurance agencies from using AI to deny care, invest in flood recovery, reduce youth homelessness, and strengthen the rights of homeowners.

As a career social worker, protecting vulnerable Washingtonians has always been my focus. Protecting survivors of sexual abuse, gun violence, and suicide is absolutely a priority of mine whilst serving in the legislature. With federal cuts threatening programs for struggling families and agencies protecting vulnerable populations, I will continue to work to strengthen and protect these resources in our state.

With your vote, I'll continue working on affordable housing, comprehensive healthcare, 988, airport pollution mitigation, childcare access for working families, language access in schools, and finding climate solutions.

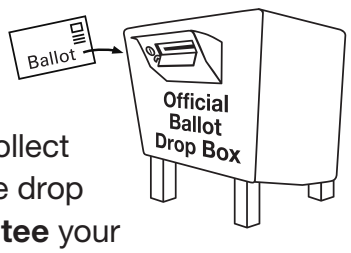

I'm proudly endorsed by local mayors and councilmembers, unions and state leaders, and many more. Let's keep working together for stronger, safer, and more supportive communities in South King County

Other Professional Experience
I work full-time in demanding jobs while building a small business with my wife. These experiences show how government policies on taxes, regulations, energy costs, and housing affect working families and small businesses daily.

Education
Hands-on experience as a small business owner and working professional.

Community Service
I am committed to serving working families by listening to their concerns and fighting for solutions that make Washington more affordable, safe, and fair for everyone. As a working-class immigrant balancing a full-time job and small business, I understand the daily pressures many Washingtonians face rather than the distant approach of career politicians in Olympia.

Statement
I'm running for Washington State House to bring common sense back to Olympia. I am not a career politician — I am one of you. If you're tired of politicians who forget the people they serve, join me. Together we will fight for lower housing and energy costs, fair taxes, stronger public safety, and practical solutions. Instead of creating endless rules that make life harder and increase government control, they should act as true public servants — making our lives easier so we can enjoy our families and achieve self-realization. Chipalo Street

(Prefers Democratic Party)

Elected Experience
State Representative, 2023-present

Other Professional Experience
At Microsoft, I work to keep our technology as a worldwide leader in safety and security. Additionally, I'm a small business owner and former professional soccer referee. I'm passionate about housing affordability and our youth, particularly in sports and STEM education.

Education
Bachelor and Masters in Computer Science, Brown University

Community Service
I'm dedicated to digital equity and taught computer science at Technology Access Foundation. My volunteer work has strengthened our community: Board Member, Institute for Democratic Future; Alumni Engagement, Leadership Tomorrow; Public Policy Impact Councilmember, United Way of King County; co-President, National Society of Black Engineers.

Statement
Raised in a working-class neighborhood and a proud product of public schools, I understand the challenges families face. Housing is expensive and healthcare is unaffordable. Childcare costs as much as a mortgage and our public schools are underfunded.

With a fascist as the president, the state legislature is more important than ever. I'm the only candidate who has turned progressive values into policy and investment. I earned positions in Democratic leadership and on tax and budget committees to champion the millionaires tax, which funds education, expands healthcare access, and cuts taxes for working families. I battled the landlord lobby to pass tenant protections like rent stabilization and reformed zoning laws to increase home building.

Working alongside community, I secured $131 million to invest in our district, including Garfield Super Block, Skyway Homeownership, Tubman Health Center, Rainier Valley Food Bank, Childhaven Early Learning Center, and $300,000 to study reparations for descendants of slaves.

I fought back when Trump was reelected, restoring the abortion funding he eliminated, maintaining food assistance for immigrants, banning ICE from wearing masks, and stopping *Flock* camera surveillance in our communities. *With unmatched endorsements from labor and environmental advocates, I ask for your vote to drive progressive wins.*

In the 37th Legislative District, I've partnered with my neighbors, workers, youth, and community leaders to help shape groundbreaking policies like the Climate Commitment and HEAL Acts. I've helped lead some of the nation's first government-funded community assemblies because the people most impacted by public policy should help create it.

I'm running for State Senate to bring community voices directly into Olympia and deliver on the priorities I hear every day: affordable housing, stronger public schools, safer neighborhoods, and reliable transit. I will champion accessible healthcare, climate justice, and an economy where working people can thrive. I will direct investments into Seattle, Skyway and Renton, protect worker and immigrant communities, small businesses, and ensure our tax system is structured so the wealthiest pay their fair share.

The 37th is my home and I will work each day to fight for a government that serves us all. You deserve leadership centered in community and action, and with your vote – we will Build Different together.

Statement
Our community is at a crossroads where the rising cost of living threatens the stability of every family. As your State Senator, my priority remains clear: making Washington affordable for everyone. We must tackle the housing crisis by increasing supply and protecting renters from predatory price gouging. I've championed legislation to build more housing and will continue fighting for middle-income housing so people can live where they work.

I know what it's like to balance rent and healthcare costs, groceries and gas, and try to make it all work. I've worked for property tax relief for seniors and expanded childcare access for working parents. We must ensure our social safety net is robust enough to catch those falling behind while building an economy where living-wage jobs are the standard, not the exception.

I'm running to ensure that South King County has a proven leader who understands the challenges of our diverse district. I'm proud to be endorsed by the Mayors of Auburn, Covington, and Kent, King County Executive Girmay Zahilay, the 47th District Democrats, the State Labor Council, and many others. Statement
For too many families in Kent, Auburn, and Covington, life is harder than it should be. Our leaders in Olympia are focused on political power instead of what our families, workers, and businesses need. That has to change. It's why I'm running for State Senate, and it's the reason I first ran for office seven years ago.

I came to this country from Ukraine when I was five years old without knowing the language, but I was blessed with opportunities made possible by strong schools, safe neighborhoods, thriving businesses, and a community focused on the future. When those values felt threatened, I stepped up to serve.

In 2019, I defeated a fourteen-year incumbent to serve on the Covington City Council because our families deserve better. Since then, I've focused on real results: launching the Clean Team to improve public spaces; fully funding our police, including funding for an additional officer; pioneering a community resource officer program for neighbors facing homelessness or mental health crises; and fighting to reduce traffic congestion.

The 47th deserves a senator focused on results, accountability, and common-sense solutions - not partisan games. I'm ready to bring that to Olympia and I'd be honored by your vote.

Statement
I'm running to restore affordability, protect constitutional rights, and bring practical, policy-focused leadership back to Olympia. After delivering hundreds of homes across Washington, I've seen firsthand how excessive regulations, rising taxes, and bureaucratic delays drive up the cost of housing, energy, and healthcare. I support fiscal responsibility, accountable government, strong civil liberties, safe communities that respect both public safety and individual rights, and continued opposition to a state income tax. We need lower costs, abundant and reliable energy, more housing, and less political theater. It's time for *a better way forward* that puts working families and individuals first.

Statement
Democrats made Washington unaffordable. I have a plan to fix it. I'll freeze all new taxes and eliminate existing taxes on income, property, and fuel. I'll order audits of every state office and program and cut waste. I'll end unaccountable public-private partnerships and legislative commissions. I'll prioritize starter homes with yards over high-density apartments forced on us by Olympia. I'll replace DEI with merit in government hiring, restore full parental rights in education, and uphold the biological definition of gender. Public safety and a classical American education come first. Kent, Auburn, Covington, and Maple Valley deserve better. I'll deliver it.

Colleen Melody

(Nonpartisan)

Legal/Judicial Experience
Supreme Court Justice. Colleen Melody works every day to uphold the rule of law, improve access to justice, and protect the rights of Washingtonians.

Other Professional Experience
Colleen was a career civil rights lawyer and public servant. She taught at the University of Washington and brought pro bono cases on behalf of immigrants and veterans. She worked at a pizza shop in high school and waited tables through college.

Statement
Colleen grew up in Spokane, the daughter of a teacher and a healthcare advocate. As a civil rights lawyer, she protected Washingtonians whose rights were violated by multinational corporations, special interests, and the federal government. Colleen returned millions in wages owed to workers and protected employees from pregnancy discrimination and sexual harassment. As the leader of the Attorney General's Civil Rights Division, she beat the Trump Administration when it tried to impose its unconstitutional Muslim Ban and separate families at the border.

Now more than ever, state courts must safeguard our rights with independence and impartiality. Washington's laws provide broad protections in privacy, the workplace, housing, healthcare, and education. State courts must be places where victims of crime and discrimination may seek justice with safety and dignity.

Colleen is a working mom who lives in rural Western Washington with her husband and two public-school daughters. She is endorsed by every sitting Supreme Court Justice; retired Justices Yu and Madsen; Governors Ferguson, Inslee, and Gregoire; Attorney General Brown; hundreds of judges and elected leaders statewide, and the Washington State Labor Council.

Statement
I am running to bring independence, principled judgment, and respect for the rule of law to the Washington Supreme Court. An independent court protects constitutional rights, ensures equal justice, and serves as a final and balanced check within our system of government. The role of the Supreme Court is to apply the constitution and laws as written, not rewrite them.

For more than 30 years I have represented clients at all levels of Washington's court system, including more than a dozen Washington Supreme Court cases. As a tax and constitutional attorney, I work on complex issues that directly affect Washington families and businesses. I have also taught at the University of Washington School of Law for over 20 years.

I learned the value of hard work, integrity, and public service early, working at my grandparents' restaurant and watching my father serve as Alaska's attorney general. Washington deserves justices who will apply the law predictably, as written, and without favoring any political agenda. My commitment is to protect your constitutional rights and work to make the Washington Supreme Court accountable and worthy of your trust.

Take politics out of the courtroom. Vote Scott Edwards, Position 1.

Statement
The duty of the Washington State Supreme Court is to uphold our constitution and to protect our rights and freedoms. Public policy is the province of the political branches and not the courts.

In the last two decades, direct appointment of judges by the governor rather than election of judges by the people has become a longstanding tradition. Our State Constitution mandated the election of judges because direct appointment leads to *ideological* and *political* decisions. Appointments were reserved for vacancies. Judge Stevens was elected and not appointed. His election will bring common sense and balance to the Supreme Court.

After High School, Judge Stevens joined the Navy. After his enlistment, he used his veteran's benefits to attend the University of Washington where he met his wife Pam. After graduating, he worked as a Federal Civil Rights Investigator for the Fair Housing Enforcement Center Seattle fighting racial, ethnic, and religious discrimination. He then went to the UW School of Law. Judge Stevens and his wife live in Shelton close to six of their nine grandchildren.

As a lawyer and judge he has tried more than two hundred jury trials. His supporters include tribes, judges, public defenders, prosecutors, attorneys, and law enforcement.

Judge Hawk fought in the courtroom for those who could not afford a lawyer. She handled trials and appeals, and defended Washingtonians against the federal government. She is the first attorney with the ACLU of Washington to become a judge. Congresswoman Pramila Jayapal and Governor Bob Ferguson endorse Judge Hawk.

Judge Hawk has presided over hundreds of criminal, civil, and family law cases, as well as appeals from lower courts. She has never had a trial overturned for legal error. She follows the law. More than 100 current and retired judges and justices from across Washington endorse Judge Hawk.

Judge Hawk will bring a strong, independent voice. Endorsed by the National Women's Political Caucus, local and county Democratic organizations, and the State Labor Council, she understands the concerns of women and working families and will bring that perspective to the Court. Statement
As a Justice and throughout my legal career, I've fought for the rule of law, the rights of all individuals, and to ensure our courts remain fair, independent, and accessible. Before joining the Supreme Court, I frequently volunteered to help people who couldn't afford lawyers. I sued the federal government when they forced children—as young as 4 years old—to appear without lawyers in immigration court. The federal government eventually agreed to pay for lawyers, and the ACLU gave me the Humanitarian Award.

I also represented an Army veteran, a naturalized U.S. citizen, after ICE wrongly detained him for seven months. The Northwest Immigrant Rights Project gave me the Amicus Award for my "groundbreaking work".

I've worked to mentor attorneys to expand diversity in our profession, and with Turkish and Greek ancestry, I am proud to be the first Justice of Middle Eastern descent on our highest court.

Statement
Judge Dave Larson's 41 years of distinguished experience, 18 years as a trial judge, 23 as a trial lawyer, form an unrivaled record making him the most qualified and best prepared candidate for our state's highest court.

Dave will restore trust in our courts by rising above partisan interests, applying the law without fear or favor, and restoring judicial independence. A truly nonpartisan candidate, Dave reaches out to Democrats, Republicans, Labor, Business, and voters across Eastern and Western Washington, because justice that serves only some of us serves none of us. He will protect your individual rights and the judicial independence that is currently under threat.

Dave's innovative criminal justice reforms have been recognized nationwide. He has collaborated with legislative Democrats and Republicans to help our trial courts address crime and addiction with compassion and accountability. However, our Supreme Court's decisions have weakened that response. As a justice, he will help fix current problems and build towards lasting and effective solutions.

Our Supreme Court needs Dave's unique perspective gained from his significant trial judge experience. That experience, integrity, and steady judgment are exactly what's needed to restore trust in, and improve, our courts. Vote Judge Dave Larson for Supreme Court.

Statement
Throughout my career, I've worked to solve complex problems thoughtfully, collaboratively, and fairly. And my background has given me a deep appreciation for hard work, sacrifice, and the experiences of everyday people. To pay for school, I worked farm, grocery and restaurant jobs and later earned my commission from the enlisted ranks.

Following 9/11, I was called from the Naval Reserve to active duty, where I served for more than a decade. I placed my civilian career on hold and left my wife and children to deploy to the Persian Gulf. That experience had a big impact on my understanding of duty, accountability, and leadership under pressure. Since returning to civilian life, I've continued my public service through the WSBA Board of Governors. It was there, I was encouraged to seek election to the Supreme Court.

This year's election is a choice--whether to retain the current justices or to give someone new your vote. I believe I represent meaningful new perspective, experience, and common sense which will bring balance to the court.

If elected, I promise to uphold and apply the law impartially and fairly. I respectfully ask for your vote for Supreme Court Justice, Position #7.

Voter tip:

Track your ballot status!

Update your info to sign up for text notifications at **VoteWA.gov**.

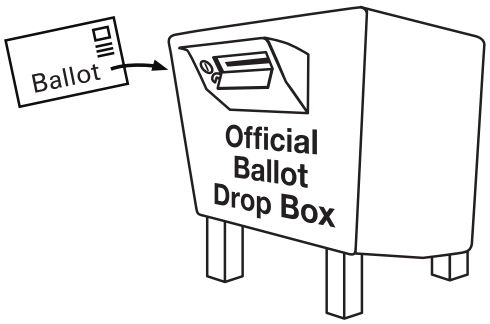

Or text VOTE to VOTEWA (868392).

How is my ballot counted?

1

Your county receives your ballot
We recommend using a 24-hour ballot drop box before 8 p.m. on Election Day. It's the fastest way to have your ballot received! Trained county election officials collect ballots from secure drop boxes and make sure your ballot is received on time.

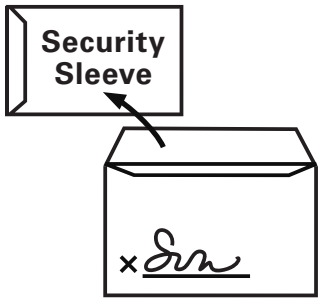

Election staff will contact you before your ballot is processed if:
- Your signature is missing
- Your signature doesn't match your voter registration record

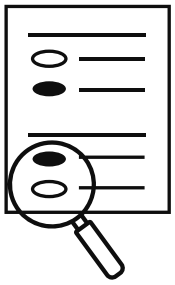

2

Your signature is verified
Your signature is important and we need it to accept your ballot. The signature on your return envelope is compared to the signature on your voter registration record. If the signature matches, your ballot is accepted and you are credited for voting to ensure **only one** ballot is counted for you.

3

Envelopes and sleeves are separated
The return envelope is opened and the security sleeve containing your ballot is removed. They are separated to ensure the secrecy of your vote.

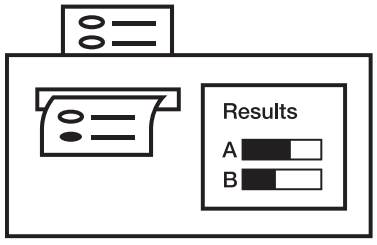

4

Your ballot is reviewed and scanned
The ballot is removed from the security sleeve and election staff verify that it can be successfully scanned. Each voting system is certified and tested before every election.

5

Your ballot is counted
After 8 p.m. on Election Day all scanned ballots are tallied. Ballots will be scanned and tallied over the next several days until all the votes are counted. Every county conducts a post-election audit.

Before an Election

Voting systems certification and testing

Ballot counting equipment is tested and certified by an independent testing authority and the State of Washington.

Voting systems are not connected to the internet.

Pre-election audit: logic & accuracy tests

Before every election, counties test their voting systems to make sure the machines are correctly set up and accurately counting votes.

Voter registration database

Washington's statewide voter registration database is constantly maintained and updated as voters become registered, move, change their name, pass away, or are no longer eligible to vote.

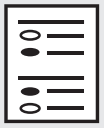

All eligible voters are automatically mailed ballots. Only one ballot per voter is accepted.

Contact your local county elections office to learn more

sos.wa.gov/county-elections-offices

During an Election

Paper ballots

Voting on paper ballots allows election officials to audit results of an election after votes are counted.

Signature verification

Trained election officials compare your signature to your voter registration file to confirm your identity and eligibility.

If your signature is missing or doesn't match, your ballot is "Challenged" and you are notified. Once your signature is verified, your ballot status will update to "Accepted".

VoteWA

Check the status of your ballot at VoteWA.gov. Once your ballot status is updated to "Accepted," your ballot will be opened and scanned. Only one ballot per voter is accepted.

Chain of custody

Ballots are sealed in secure, tamper-evident containers and at least two staff are present whenever your ballot is handled.

Scanning and tabulation

Ballot scanners and vote counting machines are physically secured in locked rooms. Election staff sign in and out each time the room is opened, and always in groups of two or more.

After Election Day

Random batch audits

Your local election officials hand count randomly selected precincts or ballot batches and compare those numbers to the voting system totals to make sure the vote counting machines counted correctly.

Random ballot audits

Your local election officials compare a random sample of individual ballots to the voting machine record to ensure reported results are correct.

Full ballot reconciliation

Your local election officials keep detailed records of the steps taken to process each ballot or group of ballots, creating an audit trail.

A final report at the end of the process includes a summary of the ballots received and counted.

Initiative Measure No. IP26-645

AN ACT Relating to taxes, repealing chapter 238, Laws of 2026, and prohibiting taxes on individual income; adding a new chapter to Title 82 RCW; creating new sections; repealing 2026 c 238 ss 101, 102, 201, 202, 203, 204, 205, 206, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 401, 402, 403, 404, 405, 406, 407, 501, 502, 601, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, and 1201; and repealing 2026 c 238 ss 1, 1203, 1208, 1209, and 1210 (uncodified).

BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON:

NEW SECTION. **Sec. 1.** The people find that for nearly a century Washington courts have held that income is property subject to ownership under the state's Constitution. Income therefore cannot be taxed unless it meets all constitutional requirements for property taxes including a uniform rate not exceeding 1 percent.

The people further find that Washington voters have soundly rejected 10 attempts to impose a statewide income tax.

The people also find that the Washington legislature has ignored the Constitution and the people's will to enact an unconstitutional income tax.

To reinstate the will of the people, this measure would repeal a state tax on the receipt of individual income; define income for tax purposes; and prohibit any tax on, or measured by, individual income regardless of source.

NEW SECTION. **Sec. 2.** The following acts or parts of acts are each repealed:

BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON:

NEW SECTION. **Sec. 1.** The people find:

(1) Existing Washington state law and school district policies require students to undergo a routine physical examination prior to participation in interscholastic sports, which includes documentation of the student's sex assigned at birth;

(2) This established requirement provides a reliable and medically verified basis to determine a student's biological sex;

(3) Protecting the integrity and fairness of women's interscholastic sports necessitates that students compete in athletic activities consistent with the gender assigned at birth; and

(4) Leveraging the existing physical examination process to verify biological sex ensures equity, safety, and competitive balance in sports intended exclusively for female students, while respecting the rights and opportunities of all participants.

Sec. 2. RCW 28A.600.200 and 2012 c 155 s 2 are each amended to read as follows:

(1) Each school district board of directors is hereby granted and shall exercise the authority to control, supervise and regulate the conduct of interschool athletic activities and other interschool extracurricular activities of an athletic, cultural, social or recreational nature for students of the district. A board of directors may delegate control, supervision and regulation of any such activity to the Washington interscholastic activities association or any other voluntary nonprofit entity and compensate such entity for services provided, subject to the ((~~following~~)) conditions ((~~:~~

(~~1~~))) outlined in this section.

(2) The voluntary nonprofit entity shall not discriminate in connection with employment or membership upon its governing board, or otherwise in connection with any function it performs, on the basis of race, creed, national origin, sex or marital status ((~~;~~

(~~2~~)(~~a~~))) (3) Any rules and policies adopted and applied by the voluntary nonprofit entity that governs student participation in any interschool activity shall be written ((~~;~~)) and

(((~~(b) Such rules and policies shall~~))) provide for notice of the reasons and a fair opportunity to contest such reasons prior to a final determination to reject a student's request to participate in or to continue in an interschool activity.

(((~~(3)(a)~~))) (4) The association or other voluntary nonprofit entity is authorized to impose penalties for rules violations upon coaches, school district administrators, school administrators, and students, as appropriate, to

punish the offending party or parties ((;
(b) No)), but no penalty may be imposed on a student or students unless the student or students knowingly violated the rules or unless a student gained a significant competitive advantage or materially disadvantaged another student through a rule violation ((;
(c))). Any penalty that is imposed for rules violations must be proportional to the offense ((;
(d) Any)), and any decision resulting in a penalty shall be considered a decision of the school district conducting the activity in which the student seeks to participate or was participating and may be appealed pursuant to RCW 28A.600.205 and 28A.645.010 through 28A.645.030.

(((4))) (5) The school districts, Washington interscholastic activities association districts, and leagues that participate in the interschool extracurricular activities shall not impose more severe penalties for rule violations than can be imposed by the rules of the association or the voluntary nonprofit entity.

(((5))) (6) Policies, procedures, rules, and other requirements adopted by a school district or a voluntary nonprofit entity in accordance with this section must conform with section 3 of this act.

(7) As used in this section and RCW 28A.600.205, "knowingly" means having actual knowledge of or acting with deliberate ignorance or reckless disregard for the prohibition involved.

NEW SECTION. **Sec. 3.** A new section is added to chapter 28A.600 RCW to read as follows:

(1) Policies, procedures, rules, and other requirements adopted in accordance with RCW 28A.600.200 by a school district board of directors or a voluntary nonprofit entity must prohibit biologically male students from competing with and against female students in athletic activities with separate classifications for male and female students if the athletic activity is:

(a) Intended for female students only; and

(b) An individual or team competition activity.

(2) A student who elects to participate in individual or team competition activities intended for female students only governed under subsection (1) of this section shall provide, as part of the required routine sports physical examination, a health examination and consent form or other statement signed by the student's personal health care provider that verifies the student's biological sex, relying only on one or more of the following: The student's reproductive anatomy, genetic makeup, or normal endogenously produced testosterone levels.

Sec. 4. RCW 28A.640.020 and 2023 c 242 s 3 are each amended to read as follows:

(1) The superintendent of public instruction shall develop regulations and guidelines to eliminate sex discrimination as it applies to public school employment, counseling and guidance services to students, recreational and athletic activities for students, access to course offerings, and in textbooks and instructional materials used by students.

(ii) Make no differentiation in pay scale on the basis of sex;

(iii) Assign school duties without regard to sex except where such assignment would involve duty in areas or situations, such as but not limited to a shower room, where persons might be disrobed;

(iv) Provide the same opportunities for advancement to males and females; and

(v) Make no difference in conditions of employment including, but not limited to, hiring practices, leaves of absence, hours of employment, and assignment of, or pay for, instructional and noninstructional duties, on the basis of sex.

(b) Specifically with respect to counseling and guidance services for students, they shall be made available to all students equally. All certificated personnel shall be required to stress access to all career and vocational opportunities to students without regard to sex.

(c) Specifically with respect to recreational and athletic activities, they shall be offered to all students without regard to sex, except as provided in section 3 of this act. Schools may provide separate teams for each sex. Schools which provide the following shall do so with no disparities based on sex: Equipment and supplies; medical care; services and insurance; transportation and per diem allowances; opportunities to receive coaching and instruction; laundry services; assignment of game officials; opportunities for competition, publicity and awards; scheduling of games and practice times including use of courts, gyms, and pools: PROVIDED, That such scheduling of games and practice times shall be determined by local administrative authorities after consideration of the public and student interest in attending and participating in various recreational and athletic activities. Each school which provides showers, toilets, or training room facilities for athletic purposes shall provide comparable facilities for both sexes. Such facilities may be provided either as separate facilities or shall be scheduled and used separately by each sex.

The superintendent of public instruction shall also be required to develop a student survey to distribute every three years to each local school district in the state to determine student interest for male/female participation in specific sports.

(d) Specifically with respect to course offerings, all classes shall be required to be available to all students without regard to sex: PROVIDED, That separation is permitted within any class during sessions on sex education or gym classes.

(e) Specifically with respect to textbooks and instructional materials, which shall also include, but not be limited to, reference books and audiovisual materials, they shall be required to adhere to the guidelines developed by the superintendent of public instruction to implement the intent of this chapter: PROVIDED, That this subsection shall not be construed to prohibit the introduction of material deemed appropriate by the instructor for educational purposes.

(2)(a) By December 31, 1994, the superintendent of public instruction shall develop criteria for use by school districts in developing sexual harassment policies as required under (b) of this subsection. The criteria shall address the subjects of grievance procedures, remedies to victims of sexual harassment, disciplinary actions against violators of the policy, and other subjects at the discretion of the superintendent of public instruction. Disciplinary actions must conform with collective bargaining agreements and state and federal laws. The superintendent of public instruction also shall supply sample policies to school districts upon request.

(b) By June 30, 1995, every school district shall adopt and implement a written policy concerning sexual harassment. The policy shall apply to all school district employees, volunteers, parents, and students, including, but not limited to, conduct between students.

(c) School district policies on sexual harassment shall be reviewed by the superintendent of public instruction considering the criteria established under (a) of this subsection as part of the monitoring process established in RCW 28A.640.030.

(d) The school district's sexual harassment policy shall be conspicuously posted throughout each school building, and provided to each employee. A copy of the policy shall appear in any publication of the school or school district setting forth the rules, regulations, procedures, and standards of conduct for the school or school district. This requirement as it relates to students, parents, and guardians may be satisfied by using the model student handbook language in RCW 28A.300.286.

(e) Each school shall develop a process for discussing the district's sexual harassment policy. The process shall ensure the discussion addresses the definition of sexual harassment and issues covered in the sexual harassment policy.
